

ANUJ TANWAR

Software Engineer • Backend Developer • AI/ML Engineer

+91 8964958940 | anujtawar42@gmail.com | Khandwa / Indore, India

SUMMARY

Engineering researcher passionate about technology-driven impact — building backend systems and ML-powered tools that solve real infrastructure and operational problems.

TECHNICAL SKILLS

Languages: Python, C++, JavaScript

Backend: REST APIs, Flask

Databases: MySQL, PostgreSQL

Data & ML: NumPy, Pandas, Scikit-learn

Tools & Deployment: GitHub Actions, Docker, Render, Vercel, Supabase

CS Fundamentals: DBMS, DSA, OOPs, SDLC

PROJECTS

PRAVYON — Data-Driven Project Monitoring & Prediction System | Python, Flask, Scikit-learn, Supabase, Docker

- Analyzed cost, time, and progress risks in infrastructure projects using historical data
- Developed an ML prediction service with Scikit-learn to identify cost and time overruns
- Designed a REST API integrating the client, database, backend, and ML service
- Deployed the backend and ML service to the cloud with a production-style workflow

EXPERIENCE

Salesman

- Worked in heavy-footfall remote areas with real-time customer management
- Handled 20,000+ real customers, developing a strong understanding of consequences and impact
- Operated in a fast-paced, risk-driven environment with high accountability

INTERNSHIPS

- Web Development (HTML/CSS/JavaScript) — 1 Month
- Backend Engineering (Python with Libraries) — 2 Months
- Databases (SQL and NoSQL DBMS) — 2 Months

ACHIEVEMENTS

- NCC & NSS Cadet
- Open Source Contributor
- Basketball — NVS Regionalist

EDUCATION

SDITS Khandwa | 2024 - 2028

Jawahar Navodaya Vidyalaya (JNV), Khandwa | 2017 - 2024 | Hostel Life
